

PICTURE TUBE TESTING ADAPTER

Use the following schematic for constructing the Picture Tube Testing Harness for Jackson tube tester Models 103, 115, 634, 636, 637, 648, 715 and 49 to test Picture Tubes with duodecal bases. RETMA #12-D, 12-H, 12-N, 12-G, 12-L, 12-M, 12-P, and 12-S.

The parts for this adapter may be purchased from your Parts Distributor.

PARTS LIST

- 1 - Amphenol 8 prong octal plug, part #86-CP8
- 1 - Amphenol plug cap, part #3-13
- 1 - Amphenol duodecal socket part #59-402
- 1 - Mueller alligator clip part #60

The following test settings should be used for Picture Tubes with above bases, on above mentioned Jackson Test Tester Models

	Models 103, 634, 636, 637			
6.3	50	2IMQ		
	Models 715, 115			
6.3	25	2IMQ		
	Model 648			
6.3	123	4567	60 X	
	Model 49			
6.3	2	-	345	8 40

The normal receiving tube test procedure should be followed for all picture tubes.
